You'll see on the longer word document, my very last comment, I suggest alternate wording on how we are handling methodologies. Can you look at our guidance on this? I think our basic approach is we don't approve methodologies, but we do review how data and information are handled in list decisions, and where a method is not consistent with the standards, it might lead to us overlisting on how the data and information are treated?

Hi Chris and Tom – I've added my comments. I think we want to spend some time fine-tuning the OA rationale. I've suggested to Chris H that a call might help.

We still need to check with John Goodin on further OW review.

My recommendation is we work this with the Region a bit more before getting any drafts up the chain.

Thanks Jim

See my comments attached. I focused mostly on OA issues. Let me know if there's anything else you want me to look more closely at. I need to check if anyone else in OGC will want to review. Let me know if you want to discuss.

Thanks,
Tom

Subject: FW: OR 2012 docs

Hi Tom,
There was a lull in the other big R10 project today, so I was able to focus on OR 2012 list for most of the day. I've gone through the documents and put in suggested changes to 4 of them (attached). One of the most common changes was removing references to the 2016 PA/PD as "proposed" – it showed up in a lot of places and I wanted to flag it where ever I saw it.

Deliberative Process / Ex. 5

Once you have a chance to review, we should talk about process. As of this week, John Goodin was still a little unsure as to the OW review or heads-up needed on this action, which might be the same for you in OGC. My goal was to get the review done as soon as possible and flag any potential policy issues for discussion, and work from there on approval.

Talk to you next week,
Chris

Subject: OR 2012 docs

Hi all,

Here are the decision docs for the OR 2012 final transmittal. Dan Opalski has requested that you complete your review and have edits back to me by COB next Thurs, Dec 6th, if possible. Please just use track changes. The One Drive is being difficult, and I want you to be able to pass them along if necessary without having to wait for me to forward. I will be in DC next week in meetings most of the day, but will be checking email in the evening. I will be back in the office in Seattle on Friday. You can also reach me on my cell if need be at Personal Privacy / Ex. 6 Thanks.
